

MUHAMMAD NAHYAN KHAN

Web Developer

About Me

Having an understanding of design concepts and being a knowledgeable web designer, makes me quite effective at web designing. Presently, I am continuing my Inter (2nd Year) education which has improved my power of observation and my ability to analyze problems. I possess practical knowledge and experience of designing and creating website content that is both attractive and easy to use. Therefore, practicing web development is my interest in current technologies and modern techniques to utilize in my work.
